

Project:
*Medical Office Building
Fort Wayne, Indiana*

Irmscher, Inc. was selected as the Design/Build contractor to assist Community Health Care Associates in developing an economical medical office building to serve Fort Wayne's inner-city residents. Irmscher's single source Design/Build process provided continuity throughout the programming, design, and construction phases of this project.

Irmscher, Inc. was challenged to keep Dr. Alfred Stovall's existing medical office facility in operation while constructing the new community medical office structure. The completed 33,000-sq. ft. Lafayette Medical Center houses approximately five physicians, a medical laboratory, pharmacy and community meeting center.
