

Project:
*Retail Outlet Mall
Traverse City, Michigan*

Irmscher, Inc. was selected by The Horizon Group to provide planning and Construction Management services to build this 125,000 square foot tenant outlet mall center in Traverse City, Michigan. The project construction was phased in order to reduce the owner's capital investment and to acquire seasonal delivery for this resort town center. Various architectural features were analyzed and added for this upscale center.

Irmscher's capacity to predictably deliver projects for the Horizon Group at various locations throughout the Midwest has proven to be of great value in making leading commitments.
